Philadelphia, PA

Suitable, Product Manager Intern

September 2025 - Present | Philadelphia, PA

- Led the discovery and roadmapping of a new, highly efficient, online registration feature, adding to “The Hub” product and further reducing the administrative burden on college administrators
- Conduct user interviews, competitive research, and internal refinement sessions to identify product opportunities and inform product strategy.
- Improve and automate sprint metrics reporting to provide analysis tailored specifically to the company’s needs

Suitable, Design Engineer

April 2024 - September 2025 | Philadelphia, PA

- Championed platform-wide accessibility, ensuring web-app’s full WCAG AA compliance for the first time, improving overall inclusivity and adding efficiency to the sales process by reducing the burden from accessibility audits
- Redesigned and deployed leaderboard feature and many reusable components throughout the app, improved the UX/UI and overall performance/efficiency
- Developed automated tests using Cypress, and built internal tools that empowered non-developers to perform complex tasks independently

The Triangle, Production Manager, Lead Print Designer

December 2022 - January 2025 | Philadelphia, PA

- Managed approximately 80 staff members during all aspects of newsprint production.
- Designed and oversaw a production schedule and strategy still used today, facilitating the creation of a printed news publications in just 2 days
- Oversaw writer and editor contributions to ensure accurate and engaging content that upheld our high standard of journalistic integrity.
- Built templates, crafted in-depth guidelines, and trained new members to ensure a consistently accessible, intuitive, and delightful news print design.

Miax Exchange Group, Digital Designer

April 2023 - April 2024 | Princeton, NJ

- Conducted web audits, competitive analysis, and user testing to maintain a dynamic and accessible website and brand
- Worked closely with all departments and a large agency to meet day-to-day design needs, create and/or improve brand looks and identities for the company and its subsidiaries, update forms and documents, create and update web-pages, and lead creative on multiple advertising, marketing, and educational campaigns.
